Application No. 10/572,239
Paper dated April 17, 2007
Attorney Docket No. 0470-060781

This application is the United States national phase of PCT Application No. PCT/NL2004/000650. The International Search Report (ISR) dated August 9, 2005 for the underlying PCT Application identified a majority of the references listed on Form PTO/SB/08a and EP 564,511 was discussed on page 2 of the originally filed specification. The January 5, 2007 Notice of Acceptance of Application Under 35 U.S.C. §371 and 37 C.F.R. §1.495, indicates that the ISR, and the International Preliminary Examination Report (IPER) were received by the United States and Trademark Office. Courtesy copies of the ISR and the IPER are included herewith.

The IPER dated February 8, 2006, indicates that the claims in the corresponding PCT application meet the international standards of patentability. Therefore, the claims in the present application should be in condition for allowance for the same reasons as set forth in the IPER.

Pursuant to 37 C.F.R. §1.97(b)3, no fee is believed to be due for the submission of this Information Disclosure Statement, as it is being submitted before the mailing date of a first Office Action on the merits. Nevertheless, the Commissioner for Patents is hereby authorized to charge any fees which may be required to Deposit Account No. 23-0650. One (1) original and two (2) copies of this Information Disclosure Statement are enclosed.

Respectfully submitted,
